

## Sat Phone SIGINT

### Horizon Technologies is a Global Leader in Innovative SIGINT Solutions

Horizon Technologies is a UK small business with our headquarters in London and our operations facility in Reading, UK.

We are the world leader in airborne satellite (SAT) phone monitoring systems for ISR applications, equipping governments worldwide by enhancing their SIGINT capabilities.

Horizon Technologies is the OEM for the FlyingFish™ SIGINT system which is flying on numerous platforms worldwide.

We are a proud member of ADS, and the London Chamber of Commerce.

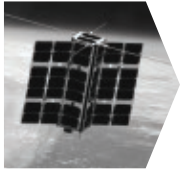

### FlyingFish™ 3rd Generation (S/SD)

FlyingFish™ is a Proven Affordable Sat Phone SIGINT Solution for Manned and Unmanned ISR Platforms.

### FlyingFish™ Maritime

Together with our Embedded AIS/GPS Receivers, a Proven Solution for Coast Guard and SAR Missions.

### FlyingFish™ Special Signals Collection Payloads for CubeSats

A Transformational Solution for Dark Target Detection/AIS Correlation and other Spaced-Based SIGINT Solutions.

### FlyingFish™ Xtender

A Proven, Affordable Solution Turning even the Smallest UAVs into Powerful SIGINT Platforms.

### FlyingFish XPOD

Plug and Play SIGINT Turns a Myriad of Aircraft into ISR Platforms.

## FlyingFish™ 3rd Generation

The FlyingFish™ Airborne Satellite Phone Monitoring System is a proven affordable SIGINT solution for manned and unmanned ISR platforms. It allows governments to passively monitor satellite communications.

#### Simultaneous and Passive Monitoring of:

- Thuraya
- IsatPhone Pro/2

#### L-Band Uplink and Downlink Signals

#### Integrated AIS/GPS Receiver for Maritime Operations

#### Horizon's New Integrated Airborne LNA/Filter and Antenna Set
